

### General specifications

Model	MTC-CW-10KG, 20KG, 30KG, 50KG
Weighing Range(g)	-10KG, 20KG, 30KG, 50KG
Minimum Scale(g)	1-10
Accuracy(g)	± 10-30
Throughput(pcs/min)	10-20
Belt Speed(m/min)	20-30
Belt Dimension(L*W mm)	600*400, 800*600, 1000*800
Reject Mechanism	pusher
IP	66
Power	220VAC ± 10%, 50/60HZ
Display	10 inch color touch screen

### Product highlights

Fully sealed automatic weighing scale assembly line with automatic weighing and counting function is a kind of high-precision online weighing equipment, which can be integrated with various packaging production lines and conveying systems. It is mainly used for on-line detection of whether the product weight is qualified, whether there is a lack of parts or instructions in the package, etc.

Because the machine will be affected by external constraints in operation, according to the customer's requirements, we have reformed the scale body, so that the machine has high safety protection, that is, to prevent external interference to the equipment, but also to achieve the accuracy of the machine.
